WALLER R. STAPLES ELECTED TO BE JUDGE

Ritter Fight Over Roanoke Judgeship Is Settled by Democratic Caucus of General Assembly.

RICHMOND, VA.—Special.—The caucus of Democratic members of both branches of the General Assembly, which met last night in the house of delegates for the purpose of selecting a judge for the Corporation Court of Roanoke, after balloting nineteen times by hour, and then adjourned, the hotly-contested honor to Waller R. Staples. His majority over Judge Ritter, Roy B. Smith, was not large, but sufficient to elect by a vote of 61 to 57.

After much preliminary skirmishing and speeches by Senator Hart and Delegate Hart, who defined their respective positions, the names of the two candidates, Staples and Ritter, were presented. Staples was nominated in an able speech by Delegate Hunt, and seconded by Senator Carter. Judge Martin Williams, Delegate Clements and Senator Daniel.

The name of Mr. Smith was placed in nomination by Delegate Chilwood, of Pittsylvania, an address from the Roanoke, who as a member of the house committee on courts of justice, was a favorite. Senator Hart seconded the nomination in a brief speech, dwelling upon the high character and judicial integrity of Mr. Smith. Seconding speeches were made by Delegates Eakin, of Accomack, Caldwell, of Nansemond, and Massie, of Richmond, and Delegate Hart.

When the vote was announced by the clerk, Senator Hart moved that the election be made unanimous. The motion prevailed and the caucus arose.

A strong effort was made to defeat Staples at the meeting, and it was evident that the caucus had always opposed his election.

PRESIDENT GOES FOR OIL TRUST METHODS

Spending Vast Sums to Debauch Public Opinion Through the Press.

COMMENDS THE BIG FINE

In His Message to Congress Mr. Roosevelt Urges Amendment to Sherman Law and New Employers' Liability Act.

RICHMOND, VA.—Special—As regards the employers' liability law, I submitted to immediate reenactment, limiting its scope so that it will apply only to the class of cases as to which the courts say it can constitutionally apply, but strengthening its provisions within this scope.

Hold Up Unfair Rates.

There should also be such action on laws better to secure control over the great railroad systems engaged in interstate commerce, and especially over the great common carriers. The Interstate Commerce Commission should be given the power to pass upon any rate or practice on its own initiative. Moreover, it should be provided that whenever the commission has reason to believe that a proposed advance in a rate ought not to be made without investigation, it has the authority to issue an order prohibiting the advance pending examination by the commission.

Check Stock Gambling.

I do not know whether it is possible, but if possible, it is certainly desirable, that in connection with reasonable regulation of railway rates and over-capitalization, there should be action taken to prevent at least the grosser forms of gambling in the stocks and commodities, such as making sales of stocks which the seller does not possess and "cornering" the market. Legitimate purchases of commodities and of stocks and securities for investment have no connection whatever with purchases of stocks or other securities on condition of a margin, for speculative and gambling purposes, or with sales of stocks not owned by the seller in the hope of depressing the market. Investment is one thing, speculation is another. Purchases of stocks, or of anything else, for investment, are entirely proper and legitimate transactions. Purchases of stocks, or of anything else, for speculative and gambling purposes, are improper and illegitimate transactions. The man who goes into the stock market, one method in fact as pernicious to the body politic as the other in kind, and in degree the evil would be far greater.

It would seem that the Federal Government could at least act by prohibiting the use of the mails, telegraph and telephone wires for mere gambling in stocks and futures, just as it does in lottery transactions.

Oil Not Cause Panic.

I decline herewith a statement issued by the clerk of the Bureau of Corporations in answer to certain statements made by me and on behalf of the agents of the Standard Oil Corporation and a letter of the Attorney-General containing an answer to certain statements, also inclosed, made by the president of the Santa Fe Railroad Company. The Standard Oil Corporation and the railway company have both issued statements by the courts of criminal misconduct; both have been convicted of criminal practices; and each has issued and published statements designed to deceive the public concerning the action of the courts in connection with these acts of guilt. These statements are very skillfully drawn, and are evidently intended to deceive the public, and are published in important particulars. The letter sent to me by the Attorney-General is sufficiently illustrative of the methods of the Standard Oil Company of New Jersey and the Santa Fe and shows the utter falsity of the statements in the following particulars of the Standard Oil being guilty of criminal practices.

The attacks by these great corporations and by their representatives' actions have been given a wide circulation throughout the country, in the newspapers and otherwise, by writers, agents and speakers who, consciously or unconsciously, are in the employment of these corporations, and who receive the wealth accumulated on a gigantic scale by the process of illegality, ranging from the oppression of railroad rebates to the subtle and unwholesome methods of grinding down competitors, and to defrauding the public by stock jobbing and by manipulation of securities. Certain wealthy men of this stamp, whose conduct should be abhorrent to every man who regards honesty as commendable, and who commit the hideous wrong of debauching public opinion, that phenomenal business success and commercial power are signs of honesty, have during the last few years made the discovery that they have banded together to control the expression of opinion in connection with their own affairs. They have established a system of advertising in the public press which shall secure it possible a freedom from all editorial criticism. They permit every unscrupulous wrongdoer to do what he wishes, provided he has enough money. The only limit to the enormous advance in a rate ought not to be made without investigation, is found in the authority to issue an order prohibiting the advance pending examination by the commission.

CHARLOTTESVILLE MAY ABOLISH JUDGESHIP

CHARLOTTESVILLE.—Special.—After being out more than four hours the jury in the case which caused the death of 143 persons in the Rhodes Opera House returned a verdict finding that the 169 persons came to their death by stupefaction, suffocation and fire, and that the primary cause thereof was the employment by Mrs. Harriet E. Monroe, of an inexperienced and incompetent operator of the calcium light, used in connection with the picture machine, and the negligence of Mrs. Harriet E. Monroe and Harry McC. Bechtel, the deputy fire marshal of this city, in the charge of criminal negligence, the latter for the failure to see that there were proper fire escapes and fire appliances.

CHARLOTTESVILLE MAY ABOLISH JUDGESHIP

CHARLOTTESVILLE.—Special.—After being out more than four hours the jury in the case will take Judge Alexander Monday morning from Christ Episcopal Church, the burial will be private. Interment will be in Woodlawn Cemetery. There is considerable talk here of the abolishment of the office of Judge of the Corporation Court. So far as it can be ascertained public sentiment is strongly in favor of saving the legal business of the city transacted in Judge White's court, which is estimated to be a saving to the city of between $2,000 and $3,000 without any apparent disadvantage.

CHARLOTTESVILLE MAY ABOLISH JUDGESHIP

CHARLOTTESVILLE.—Special.—After being out more than four hours the jury in the case will take Judge Alexander Monday morning from Christ Episcopal Church, the burial will be private. Interment will be in Woodlawn Cemetery. There is considerable talk here of the abolishment of the office of Judge of the Corporation Court. So far as it can be ascertained public sentiment is strongly in favor of saving the legal business of the city transacted in Judge White's court, which is estimated to be a saving to the city of between $2,000 and $3,000 without any apparent disadvantage.

Yancey, city councilman, announced this morning that he would be a candidate for the Democratic nomination for Congress from this district. There seems to be no doubt that Congressman Glass will again be a candidate to succeed himself.
